Cancellations leave just one speaker on PCBs

Controversial keynote among those declining

By Susan Campbell

A public information session on the potential health effects of PCBs will be held Monday evening at 7 p.m. at the Green Bay Convention Center.

at least with the World Wildlife Fund in Washington, D.C., who has studied and written about the impacts of PCBs on wildlife and their potential effects on human health — declined an invitation to attend.

What's next

A meeting on the potential health effects of PCBs will be held at 7 p.m. Monday in the Green Bay Convention Center.

But Colburn's theory that PCBs and other chemicals can control development by manipulating the body is especially controversial because it implicates a variety of chemicals commonly used in pesticides, insecticides and dyes.
