Studies: Treat heart attacks differently

Drugs to reduce cholesterol should be given, tests show

THE ASSOCIATED PRESS

NEW ORLEANS — Every one hospitalized with a mild heart attack or just chest pain should quickly get a cholesterol-lowering drug... The findings, released Wednesday, could transform treatment for 1 million Americans each year who go to the hospital with mild heart attacks or even angina.

Fort James to pay \$7 million to settle claims

Deal to help restore local environment

By Peter Robinson Press-Staff

Fort James Corp. will spend \$7 million to settle with the state its portion of natural resource damage claims stemming from PCB

pollution of the Fox River. The deal, signed Wednesday in Green Bay, calls for the papermaker to turn over environmentally sensitive land to the state, and to fund restoration and recreational projects in the Green Bay area.

Project also will involve creating a nature center at Ashwaubenon Park, establishing nesting habitat for water birds, protecting wetlands, and preserving and restoring northern pike spawning habitat along the western shore of Green Bay.

Settlements with seven paper companies on PCB-related damage claims in the state's last industrial zone.

The deal signed Wednesday is unrelated to the ongoing PCB cleanup of the Fox River. Claims from other sources of the waterway, such as those of the Ojibwa and Menominee Indian tribes, await part of the settlement in the natural resource damage assessment at the price tag attached to public.

In compensation for environmental damage caused by polychlorinated biphenyls or PCBs. The chemicals were dumped into the river by seven paper mills that manufactured or recycled carbonless copy paper during the 1960s, '70s and '80s. PCBs are linked to reproductive problems and deformities in wildlife, to developmental problems in babies.

Deer hunters get their shot at Wisconsin's huge herd

Patrick and Jake Henness hit the woods this weekend, he hopes two things will happen. He wants to get a deer, obviously, and he wants to be "bigger than my dad."

best during a hunt called Zone 7, which lasted four days in October.

The special season was designed to kill down so that fewer fawns are born next spring. The DNR is hoping more than 60,000 deer will be killed this fall, or cut back on a deer herd that has more than tripled over the last 40 years.

Jake and Patrick Henness participated in the Zone 7 hunt, but all we saw was back. Patrick Henness said, "I'm hoping the son bag a deer this weekend... 'most by because to me and a."

Gore, Bush wrangle over count

Texas governor rejects vice president's deal

Governor News Service

In a sensational night of rapid-fire presidential election developments, Florida's secretary of state refused to accept any more handcounted ballots, and Al Gore and George W. Bush made dramatic televised appeals for public support with opening hours of lead to the race that is election 2000.

The day began with court-stone campaign officials coming in and out of court over the night.

Florida Secretary of State Katherine Harris said she would not accept any handcounted ballots after a legal deadline of 3 p.m. CST Thursday.

Clinton's protester past resurfaces

President plans no apology for Vietnam War

THE ASSOCIATED PRESS

RANDALL SEIBERMAN

Clinton has no intention of apologizing in Vietnam for the war he bitterly opposed, with his commander to Hanoi saying the Department of State has already performed relations with its opponent enemy "from pretty good."

"I don't necessarily think anyone is looking for an apology," Ambassador Peter Peterson said Wednesday on the eve of Clinton's visit to Vietnam, the first by a U.S. president since the fall of Saigon and the communist takeover in 1975.

Clinton's anti-war youth probably is well known in Vietnam. Eighty percent of Vietnamese are under 40 years old, he said, and the average teenager will be by any reference to an act of defiance.
