SECTION B

Police identify body as Wallace's

By Andy Nelson
Police officers identified the body of a man who was killed in a car crash on a highway near Kaukauna as that of Wallace...

Wallace
Sound in the town of Ashland was positively identified as that of Wallace...

On March 30, 1998, Norbert William Ellis Jr. reported to speak to an investigator with the intent of taking him to the location of Jennifer M. Kanishka...

Ellis, 48, is Wallace's mother-in-law. He has been in jail since Dec. 18 on charges that he had in the Marinette County jail...

Ellis stated charges. He said he was charged with the intent of taking him to the location of Jennifer M. Kanishka...

Ellis said all indications are that Ellis acted alone. He said he did not see any other people at the scene...

Ellis said he was charged with the intent of taking him to the location of Jennifer M. Kanishka...

WPS seeks higher rates
Electric, gas charges could rise for area customers

By Scott Hildebrand
The company also is asking a rate increase for natural gas customers. Under the request, the natural gas bill for a typical residential gas customer would increase about 25% or 27 percent...

The company also is asking a rate increase for natural gas customers. Under the request, the natural gas bill for a typical residential gas customer would increase about 25% or 27 percent...

The requested electricity rate increase would be the company's first since 1989 and follows several years of rate decreases. The natural gas rate component...

Boerhaave said the utility would continue to have the lowest electric rates of any investor-owned utility in Wisconsin.

Please, no tears for shot teen

Matt Kulanek 'gets on with life'
A 19-year-old from rural Northeastern Wisconsin, on his first vacation out of the country, died in South America...

Rain swells area rivers, creeks

At the foot of Wisconsin Falls in the town of Scott. The water rapping over the falls is the result of more than 2 inches of rain that fell in Northeastern Wisconsin since Sunday. The area escaped the severe weather that occurred in western Wisconsin and Minnesota but is keeping its eye on swollen creeks and rivers threatening to top their banks because of runoff from the slow moving storm...
